

## MYCOLOGIA

### TABLE OF CONTENTS

No. 1 January-February 1987

Issued 13 February 1987

Fungi with a twist: The helicosporous Hyphomycetes

1 R. D. Goos

Chestnut blight: The classical problem of an introduced pathogen

23 S. L. Anagnostakis

Cell wall ultrastructure and diazonium blue B reaction of *Sporopachydermia quercuum*, *Bullera tsugae*, and *Malassezia* spp.

38 R. B. Simmons and D. G. Ahearn

The concentric granules of *Allomyces* and its relatives: Structure and function

44 R. J. Meyer

Distribution of VA mycorrhizal fungi along a latitudinal temperature gradient

55 R. E. Koske

Restriction fragment polymorphisms in biological species of *Armillaria mellea*

69 J. B. Anderson, D. M. Petsche, and M. L. Smith

*Plectospora myriandra*, a rediscovered water mold in Japanese soil

77 T. Watanabe

Improvement of the straw technique for the preservation of fungi in liquid nitrogen

82 J. A. Stalpers, A. de Hoog, and I. J. Vlug

Uredinales from Nepal

90 G. Durrieu

Amazonian foliicolous fungi. IV. Some new and critical taxa in Ascomycotina and associated anamorphs

97 M. L. Farr

A consistent method for producing gram quantities of typical *Bipolaris zeicola* and *B. maydis* conidia

117 A. S. Foudin and O. H. Calvert

James W. Sinden Scholarship

122

New and noteworthy marasmioid fungi from California

123 D. E. Desjardin

#### Brief Articles

Taxonomic notes on *Eutypella vitis*, *Cryptosphaeria populina*, and *Diatrype stigma*

135 D. A. Glawe and K. A. Jacobs

*Comatricha anomala*, a new record for the Western Hemisphere

140 D. T. Kowalski and R. S. Demaree

*Trichothecium cinnamomeum*, an earlier name for the thermophilic hyphomycete *Malbranchea sulfurea*

142 L. Sigler

*Ophiostoma subannulatum*, a new fungal species pathogenic to grand fir roots

144 W. H. Livingston and R. W. Davidson

Endophyte-host associations in forage grasses. VI. A new species of *Acremonium* isolated from *Festuca arizonica*

148 J. F. White, Jr., G. T. Cole, and G. Morgan-Jones

*Calcarisporium ovalisporum*, symbiotic with the insect pathogen *Hirsutella citriformis*

153 M. C. Rombach and D. W. Roberts

Two new species of *Tulostoma* (Gasteromycetes) from Texas

155 J. E. Wright

Low temperature scanning electron microscopy of discharged basidiospores of *Coprinus cinereus*

158 D. J. McLaughlin and A. Beckett

Low temperature scanning electron microscopy of discharged basidiospores of *Coprinus cinereus*

158 D. J. McLaughlin and A. Beckett

# TABLE OF CONTENTS

iii

No. 2 March–April 1987  
Issued 15 April 1987

Constantine John Alexopoulos, 1907–1986

163 H. J. Brodie

Formation of sclerotia in liquid cultures of *Coprinus congregatus* and their phenoloxidase isozymes

166 H. T. Choi, R. L. Wilks and I. K. Ross

Ultrastructure of *Neovossia horrida* teliospores

173 M. S. Nawaz and W. M. Hess

Calcium oxalate crystal morphology and development in *Agaricus bisporus*

180 K. D. Whitney and H. J. Arnott

The genus *Trabutia* and its position in the Ascomycetes

188 M. E. Barr

*Allochytridium luteum* n. sp.: morphology, physiology and zoospore ultrastructure

193 D. J. S. Barr and N. L. Désaulniers

A new species of *Thecotheus* from East Africa

200 J. C. Krug and R. S. Khan

Dynamic aspects of basidiospore number in *Agaricus*

204 R. W. Kerrigan and I. K. Ross

Differences in the cell surfaces of two compatible *Physarum polycephalum* myxamoebae

216 H. C. Aldrich and J. B. Reiskind

Amphibious hyphomycetes from the San Marcos River in Texas

228 R. E. Akridge and R. D. Koehn

Speciation in *Pleurotus*

234 A. Bresinsky, M. Fischer, B. Meixner, and W. Paulus

Type studies of Corticiaceae and Polyporaceae (Aphyllphorales) described by C. Spegazzini

246 M. Rajchenberg and J. W. Wright

Extracellular lipase production by fungi from sunflower seed

265 R. G. Roberts, W. H. Morrison, III, J. A. Robertson, and R. T. Hanlin

Comparative morphology, incompatibility, and interincompatibility of several species of *Exidiopsis* (Exidiaceae)

274 K. Wells

Dark-period induction of zygosporangia in *Mucor*

289 C. W. Hesseltine and R. Rogers

Fungal communities in soils along an elevation gradient in northern England

298 P. Widden

Observations on the Bolbitiaceae — 30 *Agaricus callistus* Peck

310 R. Watling and O. K. Miller, Jr.

Activities and isozymes of acid phosphatase in *Schizophyllum commune*: a re-examination

314 W. W. Lilly and I. Charvat

## Brief Articles

Evidence for pentaketide melanin biosynthesis in dematiaceous human pathogenic fungi

320 B. E. Taylor, M. H. Wheeler, and P. J. Szanislo

Notes on the genus *Brevilegnia*: two excluded taxa

323 D. M. Langsam

Fungi associated with the pine wood nematode, *Bursaphelenchus xylophilus*, and cerambycid beetles in Wisconsin

325 M. J. Wingfield

Washing plant roots to collect mycelium and sporocarps of *Glomus monosporum*

328 J. P. San Antonio

Observations of nuclei in vesicular-arbuscular mycorrhizal fungi

331 J. C. Cooke, J. N. Gemma, and R. E. Koske

Spore ornamentation of North American *Phellodon* species

334 R. E. Baird and S. R. Khan

## Book Reviews

338

No. 3 May-June 1987

Issued 15 June 1987

Charles Drechsler, 1892-1986

345 R. D. Lumsden

The development of the multinucleate condition of *Peronospora tabacina* sporangia

353 R. N. Trigiano and H. W. Spurr, Jr.

*Rhodocybella*: a new genus in the Entolomataceae

358 T. J. Baroni and R. H. Petersen

*Coelomomyces stegomyiae* infection in adult *Aedes aegypti*

362 C. L. Lucarotti

*Trichoderma* species from fumigated Douglas-fir roots decayed by *Phellinus weirii*

370 E. E. Nelson, B. Goldfarb, and W. G. Thies

*Torrubiella ratticaudata* sp. nov. (Pyrenomycetes: Clavicipitales) and other fungi from spiders on the Solomon Islands

375 R. A. Humber and M. C. Rombach

*Xeromphalina nubium* sp. nov. (Basidiomycetes) from Cerro de la Neblina, Venezuela

383 S. A. Redhead and R. E. Halling

Ultrastructure and cytochemistry of dormant basidiospores of *Psilocybe cubensis*

387 D. G. Ruch and J. J. Motta

Control of basidiospore germination in *Schizophyllum commune*

399 T. T. Nguyen, R. H. Schloemer, and D. J. Niederpruem

Temperature, inoculum type, and leaf maturity affect urediospore production by *Cronartium quercuum* f. sp. *fusiforme*

405 E. G. Kuhlman

Two new species of *Pichia* from arboreal habitats

410 C. P. Kurtzman

Chemically induced appressoria in *Uromyces appendiculatus* are formed aerially, apart from the substrate

418 H. C. Hoch, R. C. Staples, and T. Bourett

Two ecotypes of *Neurospora intermedia*

425 B. C. Turner

Ultrastructural and cytochemical observations on the somatic phase of *Endogone pisiformis* (Endogonaceae)

433 S. H. Jabaji-Hare and P. M. Charest

Evidence suggests that grazing regulates ascospore density in soil

445 S. E. Gochenaour

The population structure of *Peniophora rufa* in an aspen plantation

451 G. P. Chamuris and S. P. Falk

**Brief Articles**

A Schweinitz footnote

458 D. P. Rogers

The synnematus hyphomycete *Dictyocatenulata alba*

459 K. A. Seifert, G. Okada, and V. Rao

*Mycena theobromicola*, a fungus associated with cacao pod rot

463 R. Singer

*Venturia liriodendri* sp. nov., associated with a leafspot disease of *Liriodendron*

464 R. T. Hanlin

*Helicoma chlamydosporum*, a new hyphomycete from submerged wood in Panama

468 C. A. Shearer

Two new trichomycete species from *Zapada* spp. (Stonefly) nymphs with an unusual distribution

473 M. C. Williams and R. W. Lichtwardt

A new species of *Monascus* from pine tissues in Florida

479 E. L. Barnard and P. F. Cannon

Teleomorph of *Sphaerotheca fuliginea* on cucurbits in North Carolina

484 L. F. Grand

# TABLE OF CONTENTS

v

Interaction of glycogen phosphorylase, glycogen synthase, and phosphorylase kinase in *Phymatrichum omnivorum*

486 T. Sambandam and M. Gunasekaran

## Book Reviews

489

No. 4 July–August 1987

Issued 25 August 1987

*Culicinomyces bisporalis*, a new entomopathogenic hyphomycete from larvae of the mosquito *Aedes kochi*

493 L. Sigler, S. P. Frances, and C. Panter

Nuclear behavior of *Phellinus arctostaphyli*, *P. ignarius*, and *P. tremulae*

501 P. E. Hennon and E. M. Hansen

Modulation of sporulation of *Alternaria taetetica* by carbon dioxide

508 P. J. Cotty

Population genetics and systematics of marine species of *Dendryphiella*

514 K. C. Michaelis, R. V. Gessner, and M. A. Romano

Isozyme characterization of Ascosphaerales associated with bees. IV. Analyses

519 H. A. Maghrabi and L. P. Kish

Studies on ectomycorrhizae. X. Mycorrhizae formed by *Cortinariopsis obtusius* and *C. venetus* on spruce

524 R. Agerer

Association of the microtubule cytoskeleton with the thigmotropic signal for appressorium formation in *Uromyces*

540 T. Bourett, H. C. Hoch, and R. C. Staples

Endophytic fungi in propiconazole-treated and untreated barley leaves

546 T. K. Riesen and R. C. Close

Enzymes and growth substances of *Rhizopogon* species in relation to mycorrhizal hosts and infra-generic taxonomy

553 I. Ho and J. M. Trappe

Ultrastructure of microbodies in protoplasts and hyphae of *Entomophaga aulicae* (Zygomycetes)

559 F. Murrin, W. Newcomb, and I. B. Heath

Morphological and isozyme survey of chalkbrood disease of the alfalfa leafcutting bee in the western United States

565 H. A. Maghrabi and L. P. Kish

Ultrastructure of ascospore ornamentation in *Elaphomyces* (Ascomycetes)

571 D. A. Samuelson, G. L. Benny, and J. W. Kimbrough

*Naiadella fuitans* gen. et sp. nov.: a conidial basidiomycete

578 L. Marvanová and R. J. Bandoni

*Catenochytridium hemicysti* sp. nov.: morphology, physiology and zoospore ultrastructure

587 D. J. S. Barr, N. L. Désaulniers, and J. S. Knox

Nuclear behavior in the basidia of the secondarily homothallic *Coprinus bilanatus*

595 I. K. Ross and P. Margalith

Vegetative incompatibility between intraspecific dikaryotic pairings of *Ganoderma lucidum* and *G. tsugae*

603 J. E. Adaskaveg and R. L. Gilbertson

Identification of species in *Penicillium* subgenus *Penicillium* by enzyme electrophoresis

614 R. H. Cruickshank and J. I. Pitt

*Apodachlyella* reexamined

621 J. E. Longcore, J. L. Brooks, and R. L. Homola

## Brief Articles

Influence of polyoxin D on basidiospore germination of two wood decay fungi

627 E. L. Schmidt

*Ceratocystiopsis ranunculosis* sp. nov. associated with the southern pine beetle

630 J. R. Bridges and T. J. Perry

*Peziza phyllogena*: an older name for *Peziza badioconfusa*

634 D. H. Pfister

Septal structure of the chytrid *Rhizophlyctis harderi*

635 M. J. Powell and L. Gillette

A biometric study in Peronosporaceae: influence of water, lactophenol, and pregermination swelling on conidial dimensions

639 I. S. Ben-Ze'ev and R. G. Kenneth

Ultrastructure of virus-like particles in hyphae of *Entomophaga aulicae* (Zygomycetes)

644 F. Murrin, W. Newcomb, and I. B. Heath

Some endogonaceous mycorrhizal fungi of the Santa Catalina Mountains in Arizona

649 H. E. Bloss and C. Walker

*In vitro* production of *Mycosphaerella populorum* ascomata

654 C. J. Luley, L. H. Tiffany, and H. S. McNabb, Jr.

#### Book Reviews

659

#### Briefly Noted

662

No. 5 September–October 1987

Issued 29 October 1987

Jon Duane Jensen

665 D. A. Glawe and J. D. Rogers

*Blastospora itoana* on *Smilax nipponica* forms a *Caeoma* stage on *Prunus grayana* in Japan

668 Yoshitaka Ono, Makoto Kakishima, Shoji Sato, and Yukio Harada

A new species of *Rozites* from oak forests of Colombia, with notes on biogeography

674 R. E. Halling and C. L. Ovrebo

Aflatoxin formation in preharvest maize ears coinoculated with *Aspergillus flavus* and *Aspergillus niger*

679 D. T. Wicklow, B. W. Horn, and O. L. Shotwell

Allelic variation and segregation in *Morchella deliciosa* and *M. esculenta*

683 R. V. Gessner, M. A. Romano, and R. W. Schultz

Ergosterol content of salt-marsh fungi: effect of growth conditions and mycelial age

688 S. Y. Newell, J. D. Miller, and R. D. Fallon

A *Neurospora* mutant with abnormal croziers, giant ascospores, and asci having multiple apical pores

696 N. B. Raju

On the conspecificity of *Endothia eugeniae* and *Cryphonectria cubensis*

707 J. A. Micales, R. J. Stipes, and M. R. Bonde

Dispersal agents of vesicular-arbuscular mycorrhizal fungi in a disturbed arid ecosystem

721 N. J. Warner, M. F. Allen, and J. A. MacMahon

*Ceratobasidium oryzae-sativae* sp. nov., the teleomorph of *Rhizoctonia oryzae-sativae* and *Ceratobasidium setariae* comb. nov., the probable teleomorph of *Rhizoctonia fumigata* comb. nov.

731 P. S. Gunnell and R. K. Webster

Host-parasite relations and development of *Elsinoë panici*

737 A. W. Gabel and L. H. Tiffany

An ultrastructural investigation of the zoospore of *Sapromyces androgynus* (Oomycetes, Leptomitales)

745 D. Gotelli and L. C. Hanson

Ultrastructure of teliospore ontogeny in *Tilletia indica*

753 R. W. Roberson and E. S. Luttrell

Koralionastetaceae fam. nov. (Ascomycetes) from coral rock

764 J. Kohlmeyer and B. Volkmann-Kohlmeyer

#### Brief Articles

Improved method for quantifying endomycorrhizal fungi spores from soil

779 M. C. McKenney and D. L. Lindsey

- Hawaiian forest fungi. VIII. New species in *Gnomoniella* and *Stigmochora*  
 782 M. E. Barr and C. S. Hodges, Jr.
- Studies on *Phaeocalicium polyporaeum* in North America  
 786 L. J. Hutchison
- Antifungal compounds ("killer factors") produced by *Kluyveromyces* species and their detection on an improved medium containing glycerol  
 790 P. F. Lehmann, M. B. Lemon, and W. J. Ferencak, III
- Interactions of the soft rot fungus *Phialophora richardsiae* and a bacterium  
 794 J. F. Stevens
- A new species of *Pythium* with ornamented oogonia from Algeria  
 797 B. Paul
- Cladosporium trichoides* var. *chlamydosporum*: an invalidly published name  
 803 M. R. McGinnis, A. A. Padhye, and L. Ajello
- Book Reviews  
 806

No. 6 November–December 1987  
 Issued 19 January 1988

- Alexander H. Smith, 1904–1986  
 811 H. D. Thiers
- Charles Leonard Fergus, 1917–1986  
 819 R. D. Schein
- Morphology, development and taxonomy of *Loramyces*  
 821 S. Digby and R. D. Goos
- Three new species of *Smittium* (Trichomycetes) with notes on range extensions  
 832 M. C. Williams and R. W. Lichtwardt
- Further evidence for *Agaricus brunnescens* Peck as the preferred name for the cultivated *Agaricus*  
 839 D. Malloch, A. Castle, and W. Hintz
- Comparative morphology, compatibility, and interfertility of *Auricularia cornea*, *A. polytricha*, and *A. tenuis*  
 847 G. J. Wong and K. Wells
- Ultrastructure of septa, asci, and ascospores of *Eremothecium ashbyii*  
 857 W. C. Rosing
- A synthetic medium for the production of submerged cultures of *Lentinus edodes*  
 866 C. H. Song, K. Y. Cho, and N. G. Nair
- The gun cell of *Haptoglossa mirabilis*  
 877 G. L. Barron
- Characterization of *Fusarium beomiforme* sp. nov.  
 884 P. E. Nelson, T. A. Toussoun, and L. W. Burgess
- Copper tolerance of microfungi isolated from polluted and unpolluted forest soil  
 890 K. Arnebrant, E. Bååth, and A. Nordgren
- Brief Articles**
- Sporulation of two vesicular-arbuscular mycorrhizal fungi in nonsterile soil  
 896 D. Gershefske Kitt, B. A. Daniels Hetrick, and G. Thompson Wilson
- A spore collection apparatus for vesicular-arbuscular mycorrhizal fungi  
 899 P. D. Millner
- Vesicular-arbuscular mycorrhizal fungi of Wisconsin sandy soils  
 901 R. E. Koske and L. L. Tews
- A possible endogonaceous fungus from the Triassic of Antarctica  
 905 S. P. Stubblefield, T. N. Taylor, and R. L. Seymour
- Some factors influencing lipid storage in sclerotia of *Sclerotinia minor*  
 907 L. M. Kohn and D. Grenville
- Fusarium napiforme*, a new species from millet and sorghum in southern Africa  
 910 W. F. O. Marasas, C. J. Rabie, A. Lübben, P. E. Nelson, T. A. Toussoun, and P. S. Van Wyk

Teliospore germination of *Uromyces alyxiae*, an endemic Hawaiian rust  
914 D. E. Gardner
